Where is Gerald D. Irons, Sr. Junior High located?

It is located at 16780 Needham Rd., Conroe, TX 77385, on the west side of Needham Road and the north side of Highway 242.

When will the new school open?

The new school will open in August, 2012.

What grade levels will attend Gerald D. Irons, Sr. Junior High?

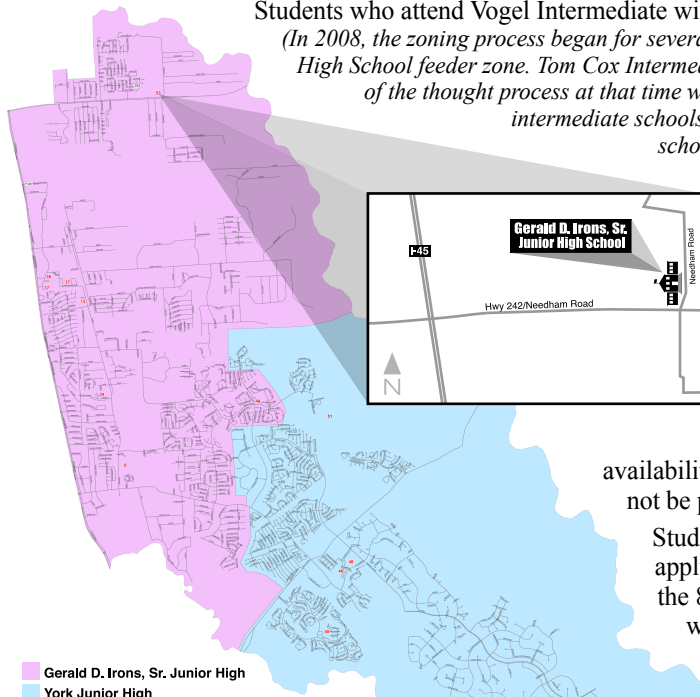

The school will hold grades 7 and 8.

What is the timeline for selecting a mascot and school colors and naming the Principal?

This process will begin during the fall of 2011.

What students will attend?

Students who attend Vogel Intermediate will attend the new junior high school. (In 2008, the zoning process began for several schools opening in the Oak Ridge High School feeder zone. Tom Cox Intermediate was one of those campuses. Part of the thought process at that time was the natural break between the two intermediate schools and their respective junior high schools: Vogel Intermediate feeds the new junior high school and Tom Cox Intermediate feeds York Junior High. [See zone map].)

Students who live in Shenandoah and have been attending schools in the Oak Ridge feeder may apply for an intradistrict transfer to attend the new junior high school. Decisions for approval will be based on space availability at the school. Transportation will not be provided.

Students will have the opportunity to apply for a transfer to remain at York for the 8th grade; however, transportation will not be provided. All 6th grade students entering 7th grade from Vogel Intermediate will attend the new junior high school.
